**\*For Immediate Release\***

## **BenSem To Play Newly Renovated Buffalo Bar**

**\* Debut album, *Western Lights* out now!\***

Riding high on the success of their recently released debut album, **Western Lights**, Pontypridd based indie rockers **BenSem** are set to take to the stage at the newly renovated Buffalo Bar, Cardiff, on **27<sup>th</sup> March**. This intimate gig in one of the city's coolest hang outs is testament to the bands growing reputation as one of the best unsigned acts around. Selling out their album launch party at Cardiff Barfly in February, **BenSem** have received critical acclaim from the music press, with Plugged In magazine describing them as "world class" and IndyConcerts.com labelling the album "phenomenal".

It's no wonder then that **BenSem** have been asked to perform live at what looks set to be a jam packed night of great music. With further local and national gigs to be announced, **BenSem** are on course for a stellar year of achievement with a new single release due in the summer, documentary feature courtesy of ITV Wales and collaboration with some of the industry's biggest producers, such as Howie Weinberg (Nirvana).

Entrance is **free** with the band on at **10pm**.
